EDUCATION

High School, Gurukul Public School, Khair Aligarh.	2017-2018
Intermediate, S R Inter College, Khair Aligarh.	2019-2020
Bachelor of Computer Science and Engineering, Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh/ Greater Noida Institute Of Technology, 7.25 CGPA.	2020- 2024

SKILLS

Programming Languages: C and C++ (Proficient), HTML(Proficient), CSS(Proficient), JavaScript (Intermediate),Core Java(Intermediate)

Database and Language: Experience in MySQL, SQL (Intermediate), MongoDB(Beginner)

Frameworks: working experience in React JS, Angular 18, Bootstrap

Version Control Tools and IDE: Git, Github, Visual Studio Code, Eclipse IDE, MySQL Workbench

Course Work: Database and management system, Object-Oriented Programming, Software Development
Computer Networks, Operation Systems, Data Structures, and Algorithms

Soft Skills: Collaboration, Communication, Planning, Teamwork, Time Management, Leadership

WORK EXPERIENCE

- Xtra4 System Pvt. Ltd. | Training** **December 2024 – March 2025, Noida, India**
- Completed a Software Developer Internship at Xtra4, where I significantly contributed to building a React-Node.js E-Commerce platform with payment integration and an Angular-based cloud ERP system, strengthening my full-stack development expertise, agile workflow experience, and collaborative problem-solving skills. I am eager to apply these skills in future software development roles.
- Xtra4 System Pvt. Ltd - Noida | Junior Software Engineer** **March/2025 - Present**
- As a full-time Software Junior Software Engineer at Xtra4, I continue to work on the cloud ERP solution, focusing on optimizing performance, implementing new features, and enhancing the user experience. My role involves collaborating with cross-functional teams, refining development processes, and ensuring scalable and efficient software solutions. I am eager to keep growing and contributing to impactful projects.

PROJECTS

- Web Application with Authentication, Data Storage in MongoDB, and Admin Page for Data Management** [Github](#)
- A full-featured application enabling users to register, authenticate, and have their contact and registration data seamlessly managed by an admin through an admin page.
 - I developed the front end using React, creating a responsive and intuitive user interface.
 - Tech stack used: HTML, CSS, JavaScript, React.js, Express.js, MongoDB.**
- TextUtils** [Github](#)
- In a project, I created a user-friendly Text Manipulation Tools Website using React. The website focuses on providing various text operations while prioritising aesthetics and functionality.
 - Tech stack used: HTML, CSS, JavaScript, React.js, Node.js.**
- AI Chat Bot Integration and control the operations with AI(OpenAI Public Key).**
- Developed and integrated an AI-powered chatbot using OpenAI Copilot Public Key for website interaction.
 - Implemented CRUD operations via the chatbot, enabling real-time database updates and automation.
 - Enhanced user experience by streamlining operations with AI-driven queries and data modifications.
 - Tech stack used: HTML, CSS, JavaScript, Node.js, OpenAI, Copilot.**

ACHIEVEMENTS & CERTIFICATE

- 550 DSA Problems Solve Leetcode, Geeks for Geeks, Code Chef.
- Leetcode 3 stars In DSA problem solving and solve 300+ problems in Leetcode.
- Web Development: Udemy
- Data Structure And Algorithms: Udemy
